

1. Screen greeting.
2. The 0th dimension, a red dot
3. Think: why not create the platonic solids (objects of 3rd dimension)?

4. Game start. Start w/ net of platonic solid.

5. Animate shapes moving as user tries to close the shape to create platonic solid.

6. User simply has to type in the number of faces that each plat. solid has (3 in this case)

7. [Skip to after user has created all plat. solids] Winning Scene

8. Star Wars inspired presentation

9. If at any point user needs help, press the H key to be linked to Numberphile videos (w/ appropriate timestamp)
